

AKRİPOL Neo Color

Akripol Neo Color is a 2K primer surfacer, consisting of 4 different colours, designed to be used in vehicle refinishes for both new parts and repaired parts.

Thanks to its quick drying and easy sanding Neo Color is very useful for repaired parts.

It can also be used as a non sanding primer for new parts.

Neo Color has excellent adhesion properties for steel, galvanized steel and aluminium car parts.

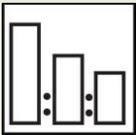

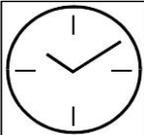

It is designed in Red, White, Black and Grey color shades thus supporting the topcoat coverage.

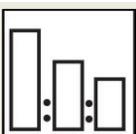

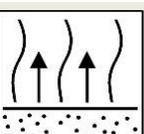

Features	Benefits
