

# AKRIPOL Neo Filler

Akripol Neo Filler is a quick drying, high build filler designed to be used on both repaired parts and new parts for vehicle refinishes.

It is specially designed as a 2K filler to have high build, quick drying and easy sanding properties together with high performance.

After through hardening, it supports the topcoat gloss level with no retention.

It can be used in conjunction with Akripol 2K Hardeners Extra Fast / Fast / Slow.

Akripol Neo Filler can be tinted with Akripol 2K Topcoats up to 5% by volume.

## Features

## Benefits

- High build and quick drying

- Reduced cycle times
- Bodyshop efficiency

- Easy sanding

- User friendly
- Reduced cycle times

- Advanced through hardening
